EDUCATION

📖 BE, R.L Jalappa Institute of Technology - 2020

📖 Vidhya Vahini PU College
2016

SKILLS

- ✓ Core Java with OOPS
- ✓ HTML
- ✓ CSS
- ✓ Java Script
- ✓ Java script Libraries
- ✓ React JS
- ✓ Redux toolkit
- ✓ Mongo Db
- ✓ Node JS
- ✓ Express JS
- ✓ Responsive Design
- ✓ DOM Manipulation
- ✓ SQL
- ✓ UX/UI Assessment
- ✓ Version Control
- ✓ SCRUM and Agile Methodology

Niranjana. M

Front End Web Developer and Trainer (Associate Software Engineer) with 2 years of experience at Test Yantra Software Solutions. Outgoing, Detail oriented, and proficient at building and maintaining the professional relationships.

Work Experience

Working at TYSS (Test Yantra Software Solutions) as Associate Software Engineer.

Roles & Responsibilities

- Implemented websites, web applications, and landing pages from concept through deployment
- Developed websites from front to backend using spring boot, JavaScript, and react JS with mobile responsive design.
- Collaborated with cross-functional teams to understand requirements and implement them in a timely manner.
- Implemented enhancements that improved web functionality and responsiveness.
- Collaborated with back-end developers to ensure that the website or application's front-end design integrates seamlessly with the back-end code.
- Collaborated with product team members to implement new feature developments.
- Standardized all output with a new, responsive, mobile-first approach and strategy.

IT Proficiency

- Knowledge on **Node JS** and **Express JS** Framework , able to create REST full api

Database:

- Know with the CRUD operation using a database language (**SQL**)
- Proficient in No Sql database management Monogo DB.

Special expertise

- I have trained more than 4000+ engineering graduates on the front end technologies HTML, CSS and JS And 500+ students on core java with oops concepts.
- Upskilled the knowledge on React JS for more than 2000 students

Projects

As a dedicated Front-End Developer, I undertook a challenging and rewarding project to create an engaging and user-centric web application, showcasing my proficiency in front-end technologies and my ability to deliver an intuitive user experience. My Key Contributions towards projects was with User Interface Design , Responsive Web Design , Event Listing and Filtering , Ticketing Integration , Performance Optimization , Cross-Browser Compatibility , Version Control and Collaboration

Freelanced for few of the small scale industry and developed a webpages to test the mechanical automotive parts produced in HAL to store the several stress details of the parts.

Certifications

1. JAVA full stack technology

feb - 2021

J-Spiders BTR

2. MERN stack

Jan -2022

J-Spiders BTR
